

TITEBOND GLUES

Titebond® II Premium Wood Glue

Weatherproof Formula

Titebond II Premium Wood Glue is the first leading brand, one-part wood glue to pass Type II water-resistance testing. Titebond II premium Wood Glue offers unsurpassed heat-resistance and forms a bond stronger than the wood itself. It resists solvents, heat and water, and sands easily without softening. Titebond II Premium Wood Glue is paintable, solvent-free, and nontoxic. It is formulated for wood, paper, cloth, hardboard, particleboard and most other porous materials.

Titebond® Dark Wood Glue

Now formulated for darker wood, this versatile formula is ideal for both hard and softwoods, but is also excellent for most porous materials. Titebond Dark Wood Glue has strong initial tack, is solvent and heat-resistant and sands easily without softening.

Titebond® Original Wood Glue

The original aliphatic resin glue specifically formulated for woodworking. Used by furniture manufactures and craftsmen for over 40 years. Titebond Original Wood glue grabs fast, aligns easily, sets fast and is unaffected by laquers, varnish and sealers. Titebond Original Wood Glue is paintable, won't soften or gum up when sanded, and bonds stronger than the wood itself. Excellent on all porous materials.

Titebond® Wood Filler

A latex-based, no-shrink formula for quick, easy repairs of chips, holes and cracks in wood. Excellent sandability and holding power. Can be stained or painted. Nonflammable formula cleans up with soap and water before drying.

Titebond® Home/School glue

Ideal for most home, school, office, and shop applications. Titebond Home/School Glue is designed for use on paper, fabric, felt, wood, pottery and more. It is also safe for children-no harmful fumes. Cleans up with water when wet. Washes out of clothing-even when dried.

Titebond® Wood Molding Glue

Specifically formulated for finish trim and carpentry, including crown molding, baseboard and window casings. Titebond Wood Molding Glue's extra thick formulation will not run or drip. Offers excellent bonding strength. It grabs fast, yet allows realignment of working pieces.

Titebond® Liquid Hide Glue

Used by professional cabinetmakers, industrial art instructors, and home craftsmen for traditional gluing. Titebond Liquid Hide Glue is a ready-to-use formula that requires no heating or mixing. It offers a slow speed of set allowing precise assembly of parts. Heat-resistant and very strong. Ideal for wood, cloth and cardboard bonding. Also used for "Crackling" effect or antiquing painted surfaces.

Titebond® Polyurethane Glue

Titebond Polyurethane Glue is a professional strength, waterproof glue specifically formulated for multi-purpose applications. In addition to it's superior wood-to-wood performance. It is ideal for metal, ceramic, plastic, HPL, Corian, stone, and other porous/non-porous materials. Titebond Polyurethane Glue is ready-to-use, offers excellent sandability, is unaffected by finishes and will not become brittle with age.
